Based in Kraków, Poland

PROFILE

I have successfully completed a 9 months long Web Developer bootcamp provided by Kodilla.
I have learned both **front-end** and **back-end** technologies **(MERN stack)**, and I have had the opportunity to test my skills by completing a range of individual and group projects.

Additionally, I got familiar with user authentication **(Google OAuth)**, **WebSocket** and **unit tests.**
I mastered the following technologies:

HTML, CSS, RWD, Bootstrap, Git, JavaScript, AJAX, Node, React, Express, MongoDB, WebSocket, Mongoose, npm, Webpack.
